INTERNETWORKING

PINNACLE NETWORX

WE PUT THE PUZZLE TOGETHER

Pinnacle NetworX, in partnership with best-in-class manufacturers, designs, installs, configures and maintains networks that will be available anytime and anywhere. Pinnacle NetworX uses proven technologies and equipment to create custom standards based network designs for each of its clients that are safe, secure and reliable.

Pinnacle NetworX uses standards based technologies to expand computer networks in a multitude of locations such as first responder vehicles, utility plant monitoring, classrooms and multi campus school systems, criminal justice facilities, office buildings, legal and medical offices. These applications range from fixed network devices to wireless mobile networking devices to provide secure network design, installation and ongoing support that exceed clients' expectations.
