

SECURITY • VIDEO • ACCESS

Using the latest technology offerings, Pinnacle NetworkX can provide an integrated solution to your security, surveillance and access control requirements. Secure access protocols allow for controlling, viewing, and managing the system from any mobile device.

OUR APPROACH

We listen to address your needs, analyzing the requirements and understanding the current technology in your specific environment.

OUR SERVICES AND PRODUCTS

- Diverse, scalable and secure video solutions for commercial enterprise and public sector markets including education and criminal justice.
- Access control systems from single door standalone systems to integrated enterprise solutions.
- Security and surveillance management and control solutions.
